EPIC	USER STORY	ACCEPTABLE CRITERIA	INCORRECT BEHAVIOR
As a **Spotify User, I need** to securely log in to my program account **so that** I can add songs to my emotion Spotify playlist	As a **Spotify User, I need** to upload an image from my computer **so that** I provide the program an image to be convert into a new track.	Ensure the user is able to: log in to the website via Twitter Oauth select option to upload image that creates popup for upload select one, or multiple images view track(s) selected based on faces from images	Choosing an image that does not contain faces will cause program to return an error Selecting the 'LOGOUT' button will cease all operations and the user will have to login again Uploading files that are not images (i.e MP3, MKV, TXT files) will cause a popup to appear prompting the user to re-upload image files
